

## ALCON LEATHER &amp; VINYL CLEANER

|               |                   |         |     |
|---------------|-------------------|---------|-----|
| Creation date | 07th July 2020    | Version | 3.0 |
| Revision date | 08th January 2026 |         |     |

## SECTION 1: Identification of the substance/mixture and of the company/undertaking

- 1.1. Product identifier** ALCON LEATHER & VINYL CLEANER  
Substance / mixture mixture  
Number M-9894 / M-9895 / M-9896 / M-9897
- 1.2. Relevant identified uses of the substance or mixture and uses advised against**  
**Mixture's intended use**  
Cleans the dirt and oils on leather seatings and furnitures in automobiles etc. vehicles, homes and offices. Doesn't cause cracks on leather.  
**Mixture uses advised against**  
The product should not be used in ways other than those referred in Section 1.
- 1.3. Details of the supplier of the safety data sheet**  
**Manufacturer**  
Name or trade name ALCON ENDÜSTRİYEL ÜRÜNLER SAN. VE TİC. LTD. ŞTİ.  
Address SOĞANLIK YENİ MAH. ALİAĞA SOK. NO:8 DAİRE:37 Bumerang  
Kartal Rezidans Kartal, İstanbul, 34880  
Turkey  
Phone +90 216 661 00 90  
Email alcon@alcon.com.tr  
Web address www.alcon.com.tr
- 1.4. Emergency telephone number**  
European emergency number: 112

## SECTION 2: Hazards identification

- 2.1. Classification of the substance or mixture**  
**Classification of the mixture in accordance with Regulation (EC) No 1272/2008**  
The mixture is classified as dangerous.

Eye Dam. 1, H318  
Aquatic Chronic 1, H410

**Most serious adverse effects on human health and the environment**  
Causes serious eye damage. Very toxic to aquatic life with long lasting effects.

- 2.2. Label elements**  
**Hazard pictogram**

**Signal word**

Danger

**Hazardous substances**

Alcohols, C12-18, ethoxylated

**Hazard statements**

H318 Causes serious eye damage.  
H410 Very toxic to aquatic life with long lasting effects.

**Precautionary statements**

P101 If medical advice is needed, have product container or label at hand.  
P102 Keep out of reach of children.  
P273 Avoid release to the environment.  
P280 Wear protective gloves/protective clothing/eye protection/face protection.

## SAFETY DATA SHEET

according to Commission Regulation (EU) 2020/878 as amended

## ALCON LEATHER &amp; VINYL CLEANER

|               |                   |         |     |
|---------------|-------------------|---------|-----|
| Creation date | 07th July 2020    | Version | 3.0 |
| Revision date | 08th January 2026 |         |     |

|                |                                                                                                                                  |
|----------------|----------------------------------------------------------------------------------------------------------------------------------|
| P305+P351+P338 | IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. |
| P310           | Immediately call a doctor.                                                                                                       |
| P391           | Collect spillage.                                                                                                                |
| P501           | Dispose of contents/container to by handing over to the person authorized to dispose of waste or by returning to the supplier.   |

**Supplemental information**

|        |                                                                                                                                           |
|--------|-------------------------------------------------------------------------------------------------------------------------------------------|
| EUH208 | Contains reaction mass of 5-chloro-2-methyl-2H-isothiazol-3-one and 2-methyl-2H-isothiazol-3-one (3:1). May produce an allergic reaction. |
|--------|-------------------------------------------------------------------------------------------------------------------------------------------|

**2.3. Other hazards**

Mixture does not contain any substance meet the criteria for PBT or vPvB in accordance with Annex XIII of Regulation (EC) No. 1907/2006 (REACH) as amended. Does not contain any PMT or vPvM components. The mixture contains substances with endocrine disrupting properties in accordance with the criteria set out in Commission Delegated Regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605.

**SECTION 3: Composition/information on ingredients****3.2. Mixtures****Chemical characterization**

Mixture.

**Mixture contains these hazardous substances and substances with the highest permissible concentration in the working environment**

| Identification numbers                                 | Substance name                                                                                | Content in % weight | Classification according to Regulation (EC) No 1272/2008                                                                                                                                                                                                                                                                                                                                                                  | Note       |

## ALCON LEATHER &amp; VINYL CLEANER

|               |                   |         |     |
|---------------|-------------------|---------|-----|
| Creation date | 07th July 2020    | Version | 3.0 |
| Revision date | 08th January 2026 |         |     |

**Notes**

- 1 *Note B: Some substances (acids, bases, etc.) are placed on the market in aqueous solutions at various concentrations and, therefore, these solutions require different classification and labelling since the hazards vary at different concentrations. In Part 3 entries with Note B have a general designation of the following type: 'nitric acid ... %'. In this case the supplier must state the percentage concentration of the solution on the label. Unless otherwise stated, it is assumed that the percentage concentration is calculated on a weight/weight basis.*
- 2 *A substance for which exposure limits are set.*
- 3 *Substance of very high concern - SVHC.*
- 4 *Endocrine disruptor for the environment*
- 5 *The substance is included in Annex XIV of the REACH Regulation*
- 6 *The use of the substance is restricted by Annex XVII of REACH Regulation*

Full text of all classifications and hazard statements is given in the section 16.

**SECTION 4: First aid measures****4.1. Description of first aid measures**

Take care of your own safety. If any health problems are manifested or if in doubt, inform a doctor and show him information from this safety data sheet. If unconscious, put the person in the stabilized (recovery) position on his side with his head slightly bent backwards and make sure that airways are free; never induce vomiting. If the person vomits by himself, make sure that the vomit is not inhaled. In life threatening conditions first of all provide resuscitation of the affected person and ensure medical assistance. Respiratory arrest - provide artificial respiration immediately. Cardiac arrest - provide indirect cardiac massage immediately.

**If inhaled**

Terminate the exposure immediately; move the affected person to fresh air. Protect the person against growing cold. Provide medical treatment if irritation, dyspnoea or other symptoms persist.

**If on skin**

Remove contaminated clothes. Wash the affected area with plenty of water, lukewarm if possible. Soap, soap solution or shampoo should be used if there is no skin injury. Provide medical treatment if skin irritation persists.

**If in eyes**

Rinse eyes immediately with a flow of running water, open the eyelids (also using force if needed); remove contact lenses immediately if worn by the affected person. No neutralization should be performed in any case! Rinsing should be continued for 10-30 minutes from the inner to the outer eye corner to make sure that the other eye is not involved. Depending on the situation, call medical rescue service or ensure medical treatment as promptly as possible. Everyone must be referred for treatment even if affected only a little.

**If swallowed**

Rinse out the mouth with clean water. In the event of issues, find medical help.

**4.2. Most important symptoms and effects, both acute and delayed****If inhaled**

Inhaling vapours can cause corrosion of the breathing system.

**If on skin**

Not expected.

**If in eyes**

Causes serious eye damage.

**If swallowed**

Corrosion of the digestion system can occur.

**4.3. Indication of any immediate medical attention and special treatment needed**

Symptomatic treatment.

**SECTION 5: Firefighting measures****5.1. Extinguishing media****Suitable extinguishing media**

Alcohol-resistant foam, carbon dioxide, powder, water spray jet, water mist.

**Unsuitable extinguishing media**

Water - full jet.

## ALCON LEATHER &amp; VINYL CLEANER

Creation date 07th July 2020 Version 3.0  
Revision date 08th January 2026

**5.2. Special hazards arising from the substance or mixture**

In the event of fire, carbon monoxide, carbon dioxide and other toxic gases may arise. Inhalation of hazardous degradation (pyrolysis) products may cause serious health damage.

**5.3. Advice for firefighters**

Self-Contained Breathing Apparatus (SCBA) with a chemical protection suit only where personal (close) contact is likely. Use a self-contained breathing apparatus and full-body protective clothing. Do not allow run-off of contaminated fire extinguishing material to enter drains or surface and ground water.

**SECTION 6: Accidental release measures****6.1. Personal precautions, protective equipment and emergency procedures**

Use personal protective equipment for work. Follow the instructions in the Sections 7 and 8. Prevent contact with skin and eyes.

**6.2. Environmental precautions**

Prevent contamination of the soil and entering surface or ground water. Do not allow to enter drains.

**6.3. Methods and material for containment and cleaning up**

Spilled product should be covered with suitable (non-flammable) absorbing material (sand, diatomaceous earth, earth and other suitable absorption materials); to be contained in well closed containers and removed as per the Section 13. In the event of leakage of the substantial amount of the product, inform fire brigade and other competent bodies. After removal of the product, wash the contaminated site with plenty of water. Do not use solvents.

**6.4. Reference to other sections**

See the Section 7, 8 and 13.

**SECTION 7: Handling and storage****7.1. Precautions for safe handling**

Prevent formation of gases and vapours in concentrations exceeding the occupational exposure limits. Prevent contact with skin and eyes. Use personal protective equipment as per Section 8. Observe valid legal regulations on safety and health protection. Avoid release to the environment.

**7.2. Conditions for safe storage, including any incompatibilities**

Store in tightly closed containers in cold, dry and well ventilated areas designated for this purpose.

**7.3. Specific end use(s)**

not available

**SECTION 8: Exposure controls/personal protection****8.1. Control parameters**

The mixture contains substances for which occupational exposure limits are set.

**European Union****Commission Directive 2006/15/EC**

| Substance name (component)                | Type           | Value                   |
|-------------------------------------------|----------------|-------------------------|
| 2-(2-butoxyethoxy)ethanol (CAS: 112-34-5) | OEL 8 hours    | 67,5 mg/m <sup>3</sup>  |
|                                           | OEL 8 hours    | 10 ppm                  |
|                                           | OEL 15 minutes | 101,2 mg/m <sup>3</sup> |
|                                           | OEL 15 minutes | 15 ppm                  |

**Turkey**

| Substance name (component)                | Type           | Value                   |
|-------------------------------------------|----------------|-------------------------|
| 2-(2-butoxyethoxy)ethanol (CAS: 112-34-5) | TWA (8 hours)  | 67,5 mg/m <sup>3</sup>  |
|                                           | TWA (8 hours)  | 10 ppm                  |
|                                           | STEL (15 min.) | 101,2 mg/m <sup>3</sup> |
|                                           | STEL (15 min.) | 15 ppm                  |

## 8.2. Exposure controls

Follow the usual measures intended for health protection at work and especially for good ventilation. This can be achieved only by local suction or efficient general ventilation. Do not eat, drink and smoke during work. Wash your hands thoroughly with water and soap after work and before breaks for a meal and rest.

## Eye/face protection

Protective goggles or face shield (based on the nature of the work performed).

## Skin protection

Hand protection: Protective gloves resistant to the product. When choosing appropriate thickness, material and permeability of the gloves, observe recommendations of their particular manufacturer. When selecting gloves, consider the properties of the product and the duration of exposure. Replace gloves at the first signs of wear or damage. Other protection: protective workwear. Contaminated skin should be washed thoroughly.

| Glove material     | Thickness | Breakthrough time | Class |
|--------------------|-----------|-------------------|-------|
| Butyl rubber (IIR) | ≥ 0.3 mm  | >480 min          | 6     |

## Respiratory protection

Halfmask with a filter against organic vapours or a self-contained breathing apparatus as appropriate if exposure limit values of substances are exceeded or in a poorly ventilated environment.

## Thermal hazard

Not available.

## Environmental exposure controls

Observe usual measures for protection of the environment, see Section 6.2. Collect spillage.

## SECTION 9: Physical and chemical properties

## 9.1. Information on basic physical and chemical properties

|                                                          |                    |

### 9.2. Other information

not available

## SECTION 10: Stability and reactivity

### 10.1. Reactivity

The product is non-reactive under normal conditions of use, storage and transport.

### 10.2. Chemical stability

The product is stable under normal conditions.

### 10.3. Possibility of hazardous reactions

Unknown.

### 10.4. Conditions to avoid

The product is stable and no degradation occurs under normal use. Protect against flames, sparks, overheating and against frost.

### 10.5. Incompatible materials

Protect against strong acids, bases and oxidizing agents.

### 10.6. Hazardous decomposition products

Not developed under normal uses. Dangerous outcomes such as carbon monoxide and carbon dioxide are formed at high temperature and in fire.

## SECTION 11: Toxicological information

### 11.1. Information on hazard classes as defined in Regulation (EC) No 1272/2008

Hazardous substances in concentrations exceeding exposure limits may cause acute inhalation poisoning, depending on the concentration and duration of exposure. No toxicological data is available for the mixture.

#### Acute toxicity

Based on the available data, the criteria for classification of the mixture are not met. Data for the components of the mixture are not available.

| ALCON LEATHER & VINYL CLEANER |           |               |               |         |     |                      |
|-------------------------------|-----------|---------------|---------------|---------|-----|----------------------|
| Route of exposure             | Parameter | Value         | Exposure time | Species | Sex | Value determination  |
| Oral                          | ATE       | 7156 mg/kg    |               |         |     | Calculation of value |
| Dermal                        | ATE       | 3355705 mg/kg |               |         |     | Calculation of value |
| Inhalation (vapor)            | ATE       | 33557 mg/l    |               |         |     | Calculation of value |

#### Skin corrosion/irritation

No data are available for either the mixture or the components. Based on the available data, the criteria for classification of the mixture are not met.

#### Serious eye damage/irritation

Causes serious eye damage. Data for the components of the mixture are not available.

#### Respiratory or skin sensitisation

No data are available for either the mixture or the components. Based on the available data, the criteria for classification of the mixture are not met.

## ALCON LEATHER &amp; VINYL CLEANER

|               |                   |         |     |
|---------------|-------------------|---------|-----|
| Creation date | 07th July 2020    | Version | 3.0 |
| Revision date | 08th January 2026 |         |     |

**Germ cell mutagenicity**

No data are available for either the mixture or the components. Based on the available data, the criteria for classification of the mixture are not met.

**Carcinogenicity**

No data are available for either the mixture or the components. Based on the available data, the criteria for classification of the mixture are not met.

**Reproductive toxicity**

No data are available for either the mixture or the components. Based on the available data, the criteria for classification of the mixture are not met.

**Toxicity for specific target organ - single exposure**

No data are available for either the mixture or the components. Based on the available data, the criteria for classification of the mixture are not met.

**Toxicity for specific target organ - repeated exposure**

No data are available for either the mixture or the components. Based on the available data, the criteria for classification of the mixture are not met.

**Aspiration hazard**

No data are available for either the mixture or the components. Based on the available data, the criteria for classification of the mixture are not met.

**11.2. Information on other hazards****Endocrine disrupting properties**

Based on the available data, the criteria for classification of the mixture are not met. Does not contain any components that may cause endocrine disruption for humans.

**Other information**

not available

**SECTION 12: Ecological information****12.1. Toxicity**

Very toxic to aquatic life with long lasting effects. Data for the components of the mixture are not available.

**12.2. Persistence and degradability**

No data are available for either the mixture or the components.

**12.3. Bioaccumulative potential**

No data are available for either the mixture or the components.

**12.4. Mobility in soil**

Based on the available data, the criteria for classification of the mixture are not met. Does not contain any PMT or vPvM components.

**12.5. Results of PBT and vPvB assessment**

Based on the available data, the criteria for classification of the mixture are not met. Does not contain any PBT or vPvB components.

**12.6. Endocrine disrupting properties**

Based on the available data, the criteria for classification of the mixture are not met. Contains components that may cause endocrine disruption in the environment.

**12.7. Other adverse effects**

Not available.

**SECTION 13: Disposal considerations**

## ALCON LEATHER &amp; VINYL CLEANER

|               |                   |         |     |
|---------------|-------------------|---------|-----|
| Creation date | 07th July 2020    | Version | 3.0 |
| Revision date | 08th January 2026 |         |     |

**13.1. Waste treatment methods**

Hazard of environmental contamination; dispose of the waste in accordance with the local and/or national regulations. Any unused product and contaminated packaging should be put in labelled containers for waste collection and submitted for disposal to a person authorised for waste removal (a specialized company) that is entitled for such activity. Do not empty unused product in drainage systems. The product must not be disposed of with municipal waste. Empty containers may be used at waste incinerators to produce energy or deposited in a dump with appropriate classification. Perfectly cleaned containers can be submitted for recycling.

**Waste management legislation**

Directive 2008/98/EC of the European Parliament and of the Council of 19 November 2008 on waste, as amended. Decision 2000/532/EC establishing a list of wastes, as amended.

**SECTION 14: Transport information****14.1. UN number or ID number**

UN 3082

**14.2. UN proper shipping name**

ENVIRONMENTALLY HAZARDOUS SUBSTANCE, LIQUID, N.O.S.

**14.3. Transport hazard class(es)**

9 Miscellaneous dangerous substances and articles

**14.4. Packing group**

III

**14.5. Environmental hazards**

not relevant

**14.6. Special precautions for user**

Reference in the Sections 4 to 8.

**14.7. Maritime transport in bulk according to IMO instruments**

not relevant

**Additional information**

Hazard identification No.

UN number

Classification code

Safety signs

M6

9+hazardous for the environment

| 55          | <p>1. Shall not be placed on the market for the first time after 27 June 2010, for supply to the general public, as a constituent of spray paints or spray cleaners in aerosol dispensers in concentrations equal to or greater than 3 % by weight.</p> <p>2. Spray paints and spray cleaners in aerosol dispensers containing DEGBE and not conforming to paragraph 1 shall not be placed on the market for supply to the general public after 27 December 2010.</p> <p>3. Without prejudice to other Community legislation concerning the classification, packaging and labelling of substances and mixtures, suppliers shall ensure before the placing on the market that paints other than spray paints containing DEGBE in concentrations equal to or greater than 3 % by weight of that are placed on the market for supply to the general public are visibly, legibly and indelibly marked by 27 December 2010 as follows:</p> <p>"Do not use in paint spraying equipment".</p> |

nonylphenol, branched and linear, ethoxylated (with average molecular weight  $\leq 1\,540$  g/mol)

| Restriction | Conditions of restriction                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
|-------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 46a         | <p>1. Shall not be placed on the market after 3 February 2021 in textile articles which can reasonably be expected to be washed in water during their normal lifecycle, in concentrations equal to or greater than 0,01 % by weight of that textile article or of each part of the textile article.</p> <p>2. Paragraph 1 shall not apply to the placing on the market of secondhand textile articles or of new textile articles produced, without the use of NPE, exclusively from recycled textiles.</p> <p>3. For the purposes of paragraphs 1 and 2, "textile article" means any unfinished, semi-finished or finished product which is composed of at least 80 % textile fibres by weight, or any other product that contains a part which is composed of at least 80 % textile fibres by weight, including products such as clothing, accessories, interior textiles, fibres, yarn, fabrics and knitted panels.</p> |

## 15.2. Chemical safety assessment

not available

## SECTION 16: Other information

## A list of standard risk phrases used in the safety data sheet

|           |                                                                                                                                           |
|-----------|-------------------------------------------------------------------------------------------------------------------------------------------|
| EUH071    | Corrosive to the respiratory tract.                                                                                                       |
| EUH208    | Contains reaction mass of 5-chloro-2-methyl-2H-isothiazol-3-one and 2-methyl-2H-isothiazol-3-one (3:1). May produce an allergic reaction. |
| H301      | Toxic if swallowed.                                                                                                                       |
| H302      | Harmful if swallowed.                                                                                                                     |
| H310+H330 | Fatal in contact with skin or if inhaled.                                                                                                 |
| H314      | Causes severe skin burns and eye damage.                                                                                                  |
| H315      | Causes skin irritation.                                                                                                                   |
| H317      | May cause an allergic skin reaction.                                                                                                      |
| H318      | Causes serious eye damage.                                                                                                                |
| H319      | Causes serious eye irritation.                                                                                                            |
| H400      | Very toxic to aquatic life.                                                                                                               |
| H410      | Very toxic to aquatic life with long lasting effects.                                                                                     |

## Guidelines for safe handling used in the safety data sheet

|      |                                                                            |
|------|----------------------------------------------------------------------------|
| P101 | If medical advice is needed, have product container or label at hand.      |
| P102 | Keep out of reach of children.                                             |
| P273 | Avoid release to the environment.                                          |
| P280 | Wear protective gloves/protective clothing/eye protection/face protection. |

# SAFETY DATA SHEET

according to Commission Regulation (EU) 2020/878 as amended

## ALCON LEATHER & VINYL CLEANER

|               |                   |         |     |
|---------------|-------------------|---------|-----|
| Creation date | 07th July 2020    | Version | 3.0 |
| Revision date | 08th January 2026 |         |     |

|                |                                                                                                                                  |
|----------------|----------------------------------------------------------------------------------------------------------------------------------|
| P305+P351+P338 | IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. |
| P310           | Immediately call a doctor.                                                                                                       |
| P391           | Collect spillage.                                                                                                                |
| P501           | Dispose of contents/container to by handing over to the person authorized to dispose of waste or by returning to the supplier.   |

### Other important information about human health protection

The product must not be - unless specifically approved by the manufacturer/importer - used for purposes other than as per the Section 1. The user is responsible for adherence to all related health protection regulations.

### Key to abbreviations and acronyms used in the safety data sheet

|                 |                                                                                                   |
|-----------------|---------------------------------------------------------------------------------------------------|
| Acute Tox.      | Acute toxicity                                                                                    |
| ADR             | Agreement concerning the international carriage of dangerous goods by road                        |
| Aquatic Acute   | Hazardous to the aquatic environment                                                              |
| Aquatic Chronic | Hazardous to the aquatic environment (chronic)                                                    |
| ATE             | Acute toxicity estimate                                                                           |
| BCF             | Bioconcentration Factor                                                                           |
| CAS             | Chemical Abstracts Service                                                                        |

| Creation date | 07th July 2020    | Version | 3.0 |
| Revision date | 08th January 2026 |         |     |

### Training guidelines

Inform the personnel about the recommended ways of use, mandatory protective equipment, first aid and prohibited ways of handling the product.

### Recommended restrictions of use

not available

### Information about data sources used to compile the Safety Data Sheet

REGULATION (EC) No. 1907/2006 OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL (REACH) as amended.  
REGULATION (EC) No. 1272/2008 OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL as amended. Data from the manufacturer of the substance / mixture, if available - information from registration dossiers.

### More information

Classification procedure - calculation method.

### Statement

The safety data sheet provides information aimed at ensuring safety and health protection at work and environmental protection. The provided information corresponds to the current status of knowledge and experience and complies with valid legal regulations. The information should not be understood as guaranteeing the suitability and usability of the product for a particular application.
